

# Out of Darkness

## Week 9 - Free at Last

### Pray and Discuss:

1. To start this session, share with the group how your Easter went. How does celebrating Easter impact your faith?
2. This week – we looked at the crossing of the Red Sea and noticed the parallel between God’s redemption of the Israelites from Egypt, and the greater redemption of creation from sin and death through the death and resurrection of Jesus. Where in your life can you see a story of redemption? What has God redeemed you from and brought you into?
3. In his message, Kaleb talked about the difficulty of letting go of the things that hold us back in order to follow Christ. Following Jesus into freedom can seem scary, just as walking through the waters of the sea must have been scary for the Israelites. We demonstrated this in the on-site service by walking through the waters of the Red Sea and placing a piece of paper into the water. If you feel comfortable, share something that you sense God may be calling you to let go of in order to live the resurrection life that he calls us to.
4. As you reflect over the story of the Exodus – what is one takeaway you have from watching God work in the lives of his people?
5. As you close, pray and thank God for his faithfulness and love towards all of us – his people.
